## The Bürgerliches Gesetzbuch

is the very backbone of **German civil law**. Its legal concepts and principles are essential for the understanding of the law of one of Europe's major legal systems.

In its first edition, this article-by-article commentary covers **Books 1 to 3 of the German Civil Code**: General Part, Law of Obligations, Law of Property. The commentary reflects the law on 31 December 2018 and includes translations of legislation until 31 December 2019.

## The commentary

of each article features the current version of the article both in the **German original** and an **English translation**. The clear and uniform structure of each commentary allows for easy navigation through the complex legal concepts and challenging terminology. Through concise **explanations**, the abstract articles are brought to life and their meaning becomes accessible to lawyers, legislators, students, scholars, and translators.

*Under the publisher's aegis, a team of distinguished experts from research and practice have collaborated on a commentary of the Bürgerliches Gesetzbuch, produced for the very first time in the English language. They explain the scope, context, meaning, terminology, relevance and practical application of the provisions of the BGB. Even if you are not familiar with German law, this commentary will help you to understand the BGB and gain an overview of current legal theory and court decisions.*

Christine Lambrecht, Federal Minister of Justice and Consumer Affairs

## About the Editors

This commentary is edited by Professor Dr Gerhard **Dannemann**, Humboldt University of Berlin, and Professor Dr Reiner **Schulze**, University of Münster. The contributors to the commentary are academics and practitioners in the field of civil and comparative law.
