

CONTRACT DAMAGES: DOMESTIC AND INTERNATIONAL PERSPECTIVES

University of Birmingham

28-29 June 2007

The conference will provide a forum for the discussion of contract damages from a wide variety of perspectives. The first day will be dedicated to the examination of damages in the context of the common law, and the second day will be structured around the international contract law instruments. The general themes for the first day include the definition and purpose of damages, the basic measure of damages, the methods of limiting damages, and the assessment of damages. The themes for the second day will include such issues as the relationship between the international instruments, the problem of recoverability of losses, the methods of limiting damages, and the assessment of damages.
